STONE CREEK SIGNATURE FACIAL

This facial is fully tailored to your skin type and your skincare goals. Equal parts pampering and results-oriented, enjoy a custom skin analysis and a divine blend of advanced skincare, tools, techniques, pure essential oils and focused massage, all based on your skin type and individual concerns.

FACE LIFT FACIAL

A few steps above our Signature experience, this 75-minute facial is indulgent. Our customized protocol is elevated by the addition of a renewing jelly mask, and a warming exfoliating hand treatment. Perfect for special occasions.

DERMAPLANING FACIAL & TREATMENT

Dermaplaning involves the gentle removal of dead skin cells and fine hair from the surface of skin via a steel blade. The result is brighter, smoothed skin and better product absorption. Available as a 60 minute facial service or a 30 minute singular treatment.

DIAMOND DERMABRASION FACIAL & TREATMENT

This service utilizes a diamond-tipped wand with adjustable suction to deeply exfoliate the top layer of skin and decrease visible signs of aging such as dullness, discoloration and fine lines. The result is glowing, more youthful skin. Available as a 60 minute facial service or a 30 minute singular treatment.

HYDROGLOW FACIAL

Our deep cleansing hydro-dermabrasion is designed to refine pores, deliver nourishment deep into the skin and provide maximum results. Combined with a complimentary oxygen infusion, highly concentrated serums, and our signature pampering perks, this treatment is the ultimate reboot for your skin.

OSMOSIS REVITAPEN FACIAL

A no-needle alternative to microneedling. This treatment utilizes Nano technology to enhance product absorption while stimulating collagen production, without discomfort or inflammation of the skin. Using medical-grade skincare, this treatment is perfect for all skin types.

RADIANT PEEL FACIAL

This multi-step treatment is designed to increase cell turnover and rejuvenate the skin. Consult with an esthetician about how this treatment can bring you closer to your skin goals.
Please discontinue use of retinol 3 days prior to this service.

ONCOLOGY FRIENDLY FACIAL

Our gentle touch and soothing products help calm and restore inflamed skin. This treatment includes a cooling massage to reduce puffiness and promote relaxation. Inspired by delicate facial treatments, it's suitable for all skin types, especially sensitive or compromised skin, and is safe to receive during oncology treatment.
